

EASY SPA CARE®
PH PLUS

Instructions for use

The ideal pH should be maintained between 7,2 and 7,6.

Add 5gr pH plus in every 1,000 lt of water to raise the pH by 0,1.

Add it directly to water preferably in the center of the spa or just in front of the skimmer for faster dissolution. Measure the pH after 30 minutes and readjust if necessary.

Composition: Sodium bicarbonate, Na₂CO₃ (> 99%).

CAUTION: Do not swallow. To avoid any risks to human health and the environment, follow the instructions for use. Do not mix it with other products. Use preferably before 1 year from the date of purchase.
