Upgrade your underwater experience and enjoy the sea with the smallest Subblue WhiteShark Mix Pro underwater scooter in the world. It can boost you up to 6,5 km/h at a depth of 40 meters. In this way, you will expand your horizons by swimming, snorkeling or diving.

Perfect for fun in the water with the family

You can use the Subblue WhiteShark Mix Pro Underwater Scooter on the beach or in the pool. It is portable, light and easy to mount on the back of boats. Definitely the ideal companion for water activities, family summer vacations and underwater trips.

Record videos and photos with ease

Capture epic moments with your smartphone on the phone dock on the float. Alternatively, you can attach your action camera to the base to turn the WhiteShark Mix Pro into an underwater filming tool at no extra cost.

Two Speed Options

In addition, it has two speed options. So you can increase the torque and test the speed at 1,8 m/s or 1,2 m/s.

Lithium-ion battery and 2-hour quick charge

(Lasts up to 60 minutes under normal underwater conditions)

It has lithium-ion batteries, which fully charge in just two hours. The Subblue WhiteShark Mix Pro Underwater Scooter can last up to 60 minutes underwater on a single charge, giving you plenty of time to explore in the water. So you'll spend less time charging and more time exploring underwater.
